

I am a Xm user and I pay in 10.00 dollers to have these opinions and having the traffic and weather is a great opinion. I don't think the XM user should have not to suffer and there programming is great and has no interuchion and not hearing all the add's on the radio that 's I love about having XM radio. I don't want them to take away this great and wonderful programming that I pay for. thanks again, Lindsay Kaufmann
